

Red Ludwigia

Ludwigia repens

Risk: Low

- Type:** Submerged or emergent stem plant
- Light:** Full sun to partial shade
- Zones:** Warm ponds; protect from frost
- Size:** 12-20 in. typical in culture
- Bloom:** Small yellow flowers possible
- Care:** Trim stems; remove rooted fragments.

RESPONSIBLE DISPOSAL

Never release plants or trimmings into natural waterways. Dry, bag, and trash removed plants unless local guidance says otherwise.
