

Vallisneria

Risk: Low

Vallisneria spp.

- Type:** Submerged oxygenating plant
- Light:** Full sun to partial shade
- Zones:** Often USDA 4-10 by species
- Size:** Leaves commonly to 36 in.
- Bloom:** Small white flowers summer-fall
- Care:** Plant crowns shallow; trim runners.

RESPONSIBLE DISPOSAL

Never release plants or trimmings into natural waterways. Dry, bag, and trash removed plants unless local guidance says otherwise.
